

Stokoderm® Sun Protect 30 PURE

SPF 30 UV Skin Protection Cream for professional use

PRODUCT DESCRIPTION

Broad spectrum, perfume-free and water resistant SPF30 sunscreen for professional use to protect the skin against harmful UVA, UVB and UVC rays.

WHERE TO USE

Outdoor workers exposed to UVA & UVB sun rays and workers exposed to UVC rays created during industrial processes, such as arc welding etc.

Caution: Applying an insufficient amount of product reduces the protective performance. Over-exposure to the sun is a serious health threat. Even sunscreen with a high SPF does not offer full protection against UV rays and does not replace the need to use/wear appropriate personal protective equipment and clothing. Avoid excessive UV exposure. Keep babies and young children out of direct sunlight and wear protective clothing. Avoid eye contact.

INSTRUCTIONS FOR USE

- Apply liberally to clean, dry skin 15 minutes before UV exposure
- Re-apply every 2-3 hours, or more frequently if sweating or washing
