

Technical Data Sheet

Tectane Penetrating Oil MoS2 Penetrating oil with molybdenum

Product Description

Penetrating Oil is a well-established lubricant and rust remover. Penetrating Oil solves, effortlessly and fast, a number of problems with servicing, repairs, maintenance and production. With cleaning and repairs, the problem always arises that old, corroded connections and screwed joints have to be unfastened.

Benefits

- Unfastening connections, such as screwed joints, nuts and bolts, which have become stuck through rust
- Offering lasting protection from corrosion
- Greasing sliding surfaces
- Removing squeaking and creaking noises
- Cleaning brake linkages, bowden cables, chains of all sorts and keeping them in good condition

Applications

The well-balanced selection of raw materials results in an immediate effect on badly corroded connections. Its strong capillary action and excellent flow properties enable Penetrating Oil to find its way into the smallest of spaces. The anti-corrosion components in the product prevent new rust from being formed on parts treated. The easy way of handling Penetrating Oil in aerosols enables the consumer to handle it safely and to use it in an economic way by applying it right on the rust spot. Tectane Penetrating Oil can be used for car maintenance, industry, household, marine etc.

Directions Of Use

Shake the aerosol vigorously before use. Afterwards, moisten the spot that needs treating covering the whole area with the product. After waiting a few minutes, the connection treated can be unfastened.

Additional information

Base	Hydrocarbons
Density	0.704
Extrusion rate gs	1.8
Frost resistance during transportation	Up to - 15 °C
Pressure at 20c bar	4.2
Pressure at 50c bar	7.9
Solid contents	<1

These values are typical properties and may vary +/-3%

Limitations

Surface Preparations and Finishing

Cleaning

Issue11/29.04.16/0013.11.DBA

Colour(s)

-

Packaging

- Aerosol

For product specifications, please refer to the Product Detail Page

Shelf Life

Storage between + 5°C and +25°C and in shaded conditions. Shelf life is 24 months when stored as recommended in original unopened packaging.
