Key Instructions: Turn nozzle to 'OFF' position and spray. Return nozzle to 'OFF' position when use.

Directions for use: For best results, spray to the stain immediately, before it has had time to spread or dry. Spray lightly directly onto the affected area. Wait for a few seconds and then dab off with a clean absorbent cloth. To prevent spreading the stain - do not rub the stained area. Repeat this process until stain is no longer visible.

Press a fresh dry cloth into the area to absorb as much fluid as possible to leave the affected area dry. Ensure surface is dry before allowing traffic in the area.

Always test colour fastness on an inconspicuous area first.

Storage: Store sealed in original container in a cool, dry place away from sunlight.
