

Stokoderm® Sun Protect 50 PURE

SPF 50 UV skin protection lotion for professional use

PRODUCT DESCRIPTION

Broad spectrum perfume-free, water resistant SPF50 sunscreen for professional use to protect the skin against the harmful effects of UVA, UVB and UVC rays.

WHERE TO USE

Outdoor workers exposed to UVA & UVB sun rays and workers exposed to UVC rays created during industrial processes, such as arc welding etc.

INSTRUCTIONS FOR USE

- **Apply liberally to clean, dry skin 15 minutes before UV exposure**
- **Re-apply every 2-3 hours, or more frequently if sweating or washing**

Caution: Applying an insufficient amount of product reduces the protective performance. Over-exposure to the sun is a serious health threat. Even sunscreen with a high SPF does not offer full protection against UV rays and does not replace the need to use/wear appropriate personal protective equipment and clothing. Avoid excessive UV exposure. Keep babies and young children out of direct sunlight and wear protective clothing. Avoid eye contact.

FORMAT: LOTION

FEATURES	BENEFITS
UVB 50 high protection	Sun Protection Factor of 50 prolongs the skin's natural protection time against the sun's UVB rays by a factor of 50.
UVA protection	Conforms to the European recommendation for providing protection against the harmful effects of UVA rays.
UVC protection	Provides additional protection against UVC rays as created artificially during certain industrial processes, such as arc welding. Does not replace personal protective equipment.
Water resistant formula	Tested to retain SPF50 protection after 80 minutes in water.
Non greasy after feel	Hydroalcoholic lotion formula absorbs quickly and easily into the skin to encourage regular use and not affect dexterity with hand held tools.
Contains Glycerin	A skin moisturiser to help prevent drying and leave skin feeling smooth after use.
Perfume-free	No added perfume. Ideal for people who are sensitive to perfumes and prefer products which do not have perfume added.
Silicone-free	The product will have no adverse effect if in contact with surfaces prior to the application of paint or surface coatings.
Compatible with rubber production processes	Independently tested at the German Institute of Rubber Technology (DIK) and proven to have no negative effect on the vulcanisation process.

Stokoderm® Sun Protect 50 PURE

SPF 50 UV skin protection lotion for professional use

STATUTORY REGULATIONS

This product is a cosmetic product regulated by and complying with Regulation EC No 1223/2009 (as amended) on Cosmetic Products.

SAFETY DATA SHEETS

For Safety, Environmental, Handling, First Aid and Disposal information please refer to the Safety Data Sheet which can be downloaded from www.debgroup.com/msds.

SHELF LIFE

This product has a shelf life of at least 30 months from the date of manufacture when stored unopened at room temperature.

QUALITY ASSURANCE

SC Johnson Professional skin care products are manufactured in facilities which follow cosmetic Good Manufacturing Practice (cGMP) requirements.

All raw materials used for production undergo a thorough quality control process before being used for manufacturing in SC Johnson Professional's high quality products.

All finished goods are subject to intensive quality testing before being shipped out to our customers.

PRODUCT SAFETY ASSURANCE

Skin Compatibility Test

96 hour patch test results show the product to be safe for use.

Toxicological Approval

The product has been independently assessed for human toxicity and product stability. It is declared safe for intended use, meeting all relevant regulatory requirements.

It is declared safe for intended use on children over 6 months and adults and that there is no significant risk of irritancy or allergy.

COMPATIBILITY TESTS

Rubber Production Process Compatibility

In testing conducted by the Deutsches Institut für Kautschuktechnologie (DIK) in accordance with DIN 53530, the use of Stokoderm® Sun Protect 50 PURE in rubber production process does not influence the cohesive strength of rubber.

EFFICACY TESTS

Assessment of UVA-PF In vitro

Determined according to COLIPA guideline March 2011 confirms a UVA protection (Colipa ratio <3). Based on ISO 24443:2012.

UVB Efficacy Test in vivo

The SPF was determined using the International Standard for determining the sun protection factor (ISO 24444:2010).

UVC Efficacy Test in vitro

Determined according to a modified COLIPA Guideline March 2011 confirms the product provides UVC protection in the range of 200 to 400nm.

SPECIAL NOTE: UV protection creams even with high SPF, do not offer full protection against UV rays and do not replace the need for using/wearing appropriate personal protective equipment and clothing.

Water Resistance Test

Determination of the SPF factor based on the ISO 24444 and the COLIPA International water resistancy SPF test method (2005).
