

Health & Safety Policy

Policy Statement

Our policy is to provide and maintain safe and healthy working conditions for all our employees, contractors, and agency staff working on our behalf. In addition, we will seek to ensure the work that we carry out does not affect the health and safety of others, e.g. our customers, visitors and members of the public.

We will achieve this policy, in part, by:

1. Appointing competent Managers who are responsible for health and safety in their respective areas.
2. Ensuring that adequate resources and sufficient financial arrangements are in place to control health and safety risks arising from our work activities.
3. Consulting with all our employees on matters affecting their health and safety and providing information, instruction, training and supervision, as appropriate.
4. Seeking advice and assistance from external organisations to supplement our own in-house health and safety initiatives.
5. Monitoring and reviewing the health, safety and welfare arrangements we have put in place at least every twelve months to determine their continued effectiveness.
6. Setting goals and following action plans to ensure continuous improvement in health and safety performance.
7. Promoting a positive health and safety culture within our organisation, e.g. with Managers leading by example.

This statement is intended to encourage a positive attitude to safety and should be used in conjunction with the additional safety guidelines issued periodically.
